

2700 Data Sheet

SERIES: 2000 LINEAR WOOD

STYLE: 2700 KERF REVEAL LINEAR

Overview

The **2700 Kerf Reveal Linear** wood ceiling offers a design where the individual wood members abut with a thin reveal between each plank. Members are installed randomly to create a planked look. Member lengths are typically between 4' and 8'.

Attachment for the Kerf Reveal Linear is via progressive install, utilizing the 9Wood Z-Clip.

Product Data

Application

The Kerf Reveal Linear provides a planked look and creates a “wood floor-on- the-ceiling” appearance with clear delineations at board edges. Access can be through strategically located access panels or from room perimeters. Members are secured to T-Bar main runners progressively with the 9Wood Z-Clip.

Performance

Acclimatization

Kerf Reveal Linears must be cared for in a controlled interior environment (RH 25%-55% max; temp. 60°-80°) and installed only after reaching equilibrium moisture content. Should the building fall outside these limits, consult 9Wood for our 3 Tests/3 Tracks Acclimatization Advisory.

Acoustics

The Kerf Reveal Linear is considered acoustically reflective.

Fire Rating

Individual members and components can be treated with Class I (A) Fire Retardant chemicals (solid wood use FR coatings, veneered particleboard use FR formulas). Particular species or styles have not been tested.

LEED

Kerf Reveal Linears may qualify toward MR-3, MR-4.1/4.2, MR-5.1/5.2, MR-6, MR-7, IEQ-4.2 or IEQ-4.4. As all products are custom-fabricated, LEED credit opportunities are project by project. Please contact 9Wood for specifics.

MEP

The Kerf Reveal Linear permits MEP penetrations in the ceiling’s surface. Cut panels may require supplemental reinforcement. Fixtures and diffusers must be independently supported.

Seismic

Clips are typically mechanically screwed to T-Bar for seismic compliance. Please consult local code or a licensed engineer for any additional requirements.

Species & Finishes

9Wood can offer both domestic and imported species for the Kerf Reveal Linear. Clear, satin sheen finish is standard; custom stain matches are available.

Suspension

Kerf Reveal Linears are directly attached to 15/16” heavy duty T-Bar main runners. Main runners are typically 2’ on center.

System Weight

Kerf Reveal Linears typically weigh 3 pounds per square foot or less.
